ABOUT US: We hope to create an after school art program to address the decrease in art education funding in Chicago. More importantly, our purpose is to build the self-esteem of inner city youth while providing an environment for children to express their creativity in an emerging field of art using LEGO bricks as a medium. This is a student run initiative supported and overseen by the Interprofessional Projects (IPRO) program at Illinois Institute of Technology. We also partner with the Louis L. Valentine boys and girls club in Bridgeport, Chicago. A big thank you to our supporters & generous donors! We couldn't do it without you!

Get a Child Started: $10 (covers cost of trophy)
Sponsor-A-Student: $50 (covers cost of LEGOS)

Can't Donate? Volunteer your time with us!

100% of Your Donation is Tax Deductible
Your donation will be made directly to the Illinois Institute of Technology, a 501(c)(3) organization. IIT’s IPRO program, since 1995, has supported teams of students being change agents for communities in need.
